

It's time for winter break! That means kids are heading home to enjoy the holidays with family and friends. Children with developmental disabilities, learning disabilities, or attention issues may struggle with the transition from routine daily life into holiday celebrations.

[Social stories](#) are a great resource for children with any sort of difficulty with comprehension. They use images, words, or some combination of both to explain specific occurrences, social interactions, concepts, skills, or behaviors. Many families of children with cognitive disabilities benefit from showing them social stories before a new event or change in daily schedule.

We put together a resource with some free social stories from around the web that will help your little one prepare for winter break and holiday celebrations!

[Winter Break Social Narrative](#): This interactive mini book discusses upcoming events to expect over winter break.

[Return to School Social Story](#): If the return to school is a struggle, this short social story can help with the transition.

[What to Wear in Winter Social Story for Boys](#) and [What to Wear in Winter Social Story for Girls](#) are both social stories that help kids understand and recognize winter-specific clothing

options.

[Social Script for Receiving Gifts](#): This helpful script gives ideas for what to say when giving or receiving gifts around the holidays.

[What to Expect at Christmas](#): This social story shows what a child can expect when celebrating Christmas.

[Seeing Santa Social Story](#): Children who struggle with Santa visits may benefit from a social story about what they can expect.

[Hanukkah Social Story](#): This social story shows different key elements of Hanukkah celebrations.

[Menorah Social Story](#): This social story shows the process of lighting the menorah.

[Saying “Thank You” Social Story](#): A social story about saying “thank you” for gifts.

[Christmas Visual Schedule](#): This flip book chronology of holiday events can be catered to a child’s specific itinerary.

[Calm Down Cards](#): Some children may benefit from bringing calm down cards to over-stimulating events. These cards inspire mental breaks.

[Event Planner](#): Children may benefit from having their own event planner to prepare for any upcoming event.

Do you have any social stories your child has found helpful around the holidays? Let us know in the comments and we’ll add them to our list.

About the HIE Help Center and ABC Law Centers

The HIE Help Center is run by [ABC Law Centers](#), a medical malpractice firm exclusively handling cases involving HIE and other birth injuries. Our lawyers have over 100 years of combined experience with this type of law, and have been advocating for children with HIE and related disabilities since the firm's inception in 1997.

We are passionate about helping families obtain the compensation necessary to cover their extensive medical bills, loss of wages (if one or both parents have to miss work in order to care for their child), assistive technology, and other necessities.

If you suspect your child's HIE may have been caused by medical negligence, please contact us today to learn more about pursuing a case. We provide free legal consultations, during which we will inform you of your [legal options](#) and answer any questions you may have. Moreover, clients pay nothing throughout the entire legal process unless we obtain a favorable settlement.

You are also welcome to reach out to us with inquiries that are not related to malpractice. We cannot provide individualized medical advice, but we're happy to track down informational resources for you.
